(Girls did not wear trousers)  
Woolen skirt and Cotton blouse.  
Woolen cardigan or sleeveless jumper  
Long or short sleeved jumper.  
Ankle socks, grey or white  
Plimsolls, leather lace up shoes or sandals

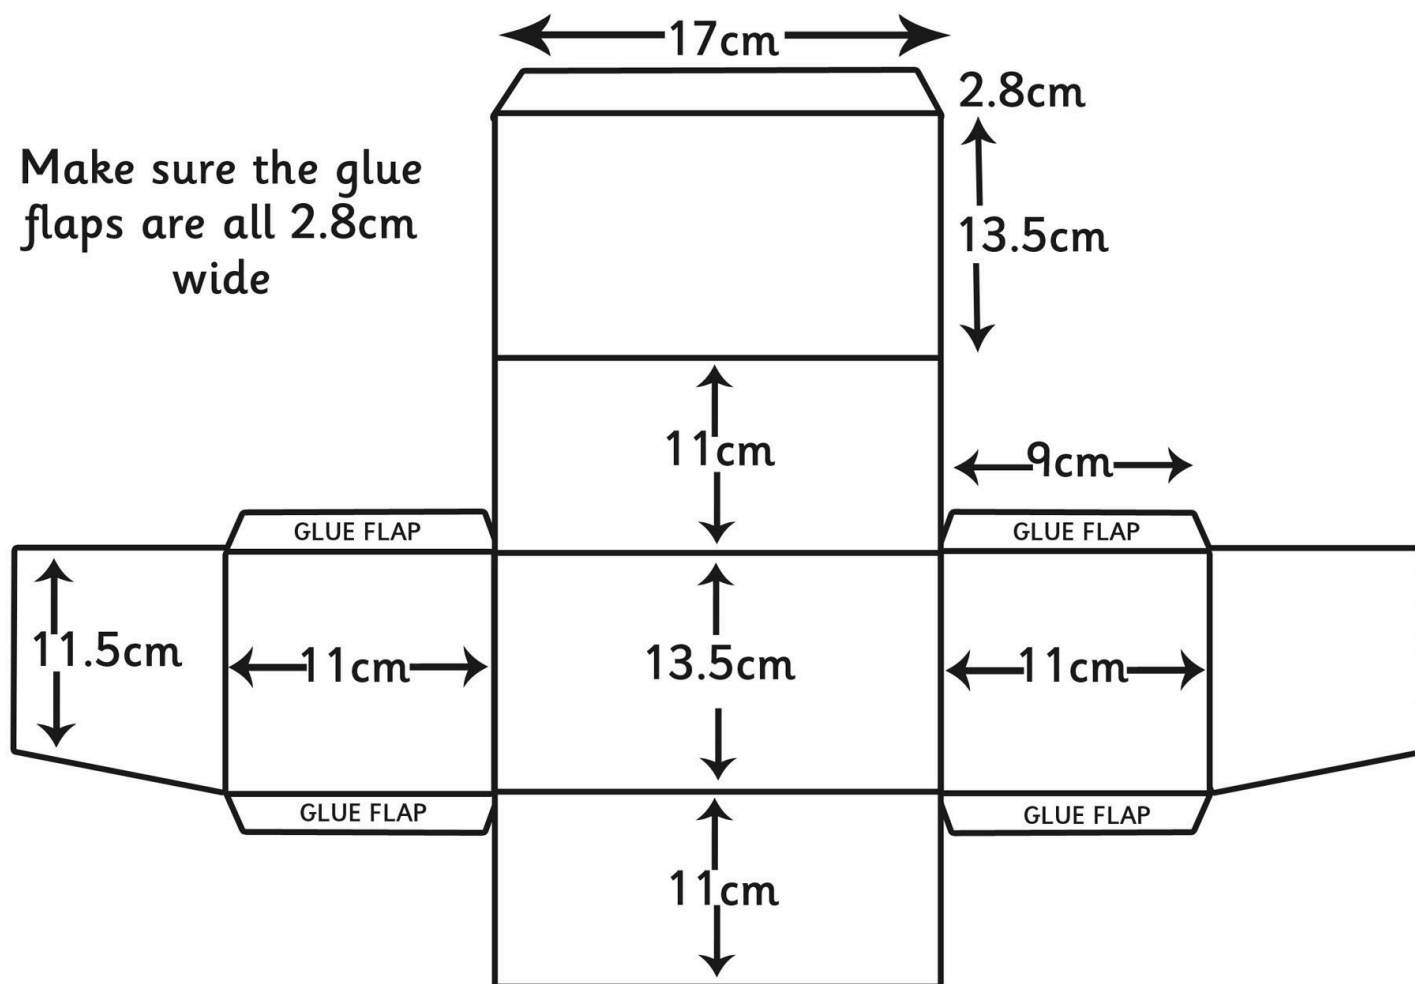

## MAKE A GAS MASK BOX

The children will need small square/oblong cardboard box. Shoe shops are normally quite happy to let people have old shoe boxes. (Small children's shoe boxes are ideal). Make a hole either end of the short sides of the box. Cut a length of good quality string, long enough for your gasmask box to go over your shoulders, so the box can hang at your side. Thread the string through the holes in either end of your box and secure with good knots and sticky tape. Stick your respirator instructions inside the lid. Put the lid on the box and put over your shoulders. The children may bring one favourite "old fashioned" toy each.... A teddy, dolly or small toy car.

OR if you would prefer, use the template below to help construct your own.

Using the measurements and the diagram below, along with a ruler, make your own gas mask box and then cut out the instruction label to stick on the back of it.

## EVACUEE LABELS.

You can photo copy these and stick on card. Write your name and school on the label. Make a hole in the middle of the circle and loop a piece of string through it. Attach to clothes with a safety pin.

OR an easier option.

You can buy packets of these labels from your local Post office with string already in place. A pack of ten costs pennies!

## Gas Mask Labels

This label would be stuck on top of your gas mask box. Stick on their gas mask box. Gas mask boxes can be made from shoes boxes, painted brown. String will be required to thread through the box to make a strap for wearing the box.
