

Catch-Up Premium

The Government has announced that £1 billion of funding has been earmarked for schools to support children and young people to catch up. This includes a one-off universal £650 million catch-up premium for the 2020 to 2021 academic year to ensure that schools have the support they need to help all pupils make up for lost teaching time due to Covid-19. Although all children have had their education disrupted by the coronavirus (COVID-19) outbreak, it is likely that younger children, disadvantaged and vulnerable groups will have been hardest hit.
